Notes:

* **It is recommended to use this belt only for low load small conveyors and only with rollers bed.**

1. Pull force relates to steel pulleys. Multiply given values by 0.9 for cast iron, 1.1 for rubber and 0.8 for wet smooth drums.
2. All values are nominal and to the best of our experience are true and accurate.
3. English dimensions have been converted from metric measurements.
4. * Special Product.
